No discount is given for any reason. All enrollments are done on first come first serve basis. The class size is limited to 12 students per session, no exceptions. If you wish, you may sign-up your child for Extended Day on the day he/she attends this class for an additional \$5 (Prepaid to DBP), and your child will be picked up from and returned to the Extended Day classroom for carpool pickup. If you are interested in enrolling, please pay Mrs. Toni Pouliot electronically via VENMO (No Checks, Cash, or Money Orders are accepted) and send in this completed Registration Form to the DBP office in your child's zipper pouch, before the start of Enrichment session. No child may enroll in Phonics once the 2nd session has started, as this program is based on building blocks learning, therefore it would be hard for new children to catch-up with the class. There will be no online instruction during Emergency school closings, monies will be prorated/refunded for those classes not held within a session for COVID-19 closings.

Why should your child be enrolled in Phonics enrichment program? (Your child will remain enrolled for the entire school year, unless he/she leaves DBP)

Reading gives your child an exclusive sense of transformed confidence, vigor, and independence as he/she travels with you in the car, or is at home reading a book, or even helping you with your shopping list in the grocery store. Phonics Enrichment is an extension of your child's preschool classroom learning. Your child will learn to read based upon the Principles of Early Childhood Education & Building Blocks of Literacy focusing on keeping your child engaged and excited as we introduce and reinforce the basic concepts of Phonics while promoting confidence.

Your child will learn through multi-sensory experiences enhancing language & literacy skills while having fun and playing with the tactile & action Phonics games, using letter-tiles, BINGO, letter/picture flashcards, singing and moving with music, nursery rhymes/poems, and doing art while addressing the importance of multi-sensory experiences in learning language and literacy skills.

Your child will learn the skills to read by recognizing rimes and phonemic awareness with activities that incorporate auditory, visual, and kinesthetic styles of learning. Your child will review letters recognition, as well as learn the Letter/Sound correlations (consonants and Vowels), attend to letter sounds through segmenting sentences with onsets and rime and phoneme manipulation, rhyming, compound words, syllables, and prepare for blending letter sounds as we read popular children's short stories, recite poems, and sing fun songs.

Your child will make a letter portfolio, which will be a work in progress to be completed by the end of the school year. Your child will also explore his/her individual creativity to create imaginative short story books complete with individual art, and narration.
